

BFL awarded 'FIVE STAR rating by The British Safety Council.

Bharat Forge Ltd has been awarded the 'Five Star Rating' by The British Safety Council, UK. The award aims to recognise the 'best of the best' in health and safety management.

The international "quality-assured rating" system evaluates an organisation's health, safety and performance. A structured audit system provides a safety plan for continuous improvement towards best practice.

To ensure it is a truly objective measurement and continuous improvement tool, the Five Star protocol and methodology evaluates management performance quantitatively, producing a numerical score for each of the 60 elements. The report works from a zero base and builds on an organisation's success in each element. It also highlights successes and opportunities.

The British Safety Council's five star rating for Health and Safety management system audit is a comprehensive audit system that is designed for 'real' workplace. It is a demonstration of good health and safety practice in the facility.

Five Star Rating certificate awarded to Bharat Forge

The uniqueness of Five Star Audit is the scored audit system that provides a quantifiable measure for each element providing a clear development path, outlining the exact level of improvement required. BFL is a proud recipient of the Five star rating that displays the efficient health and safety management system that has be developed and followed. This award displays the high standards of safety that is followed in Bharat Forge Ltd.
