Thanking you,

Yours faithfully,

For **Bharat Forge Limited**

Tejaswini Chaudhari Company Secretary and Compliance Officer

Encl.: As above

BHARAT FORGE LTD Q3 FY24 ANALYST UPDATE

Management Commentary: Q3 FY24 Performance

BFL 3 Month Report: "During the quarter, the company delivered a strong performance with sales growing by 15.9% to Rs 2,263 Crores and EBITDA growing by 30.9% to Rs 645 Crores. EBITDA margins at 28.5% expanded by 330 bps driven by favourable product mix and focus on cost optimisation. The balance sheet continues to remain very healthy with Cash on books of ~Rs 1,000 Crores (Net of Long-Term Loans). At a consolidated level, Revenues have grown by 15% to Rs 3,867 Crores and EBITDA grew by 56% to Rs 673 Crores.

Exports from Indian manufacturing operations across components, defence & Industrial in Q3 FY24 stands at US\$ 200 million, a growth of 36% over Q3 FY23. Over time, We expect this number to grow as the new verticals scale up and we enhance our presence in the industrial space.

For 9M FY2024, standalone sales have grown by 19% to Rs 6,640 Crores and EBITDA grew by 29% to Rs 1,815 Crores. A key driver of this growth has the successful ramp-up of the defence business, in addition to the growth in the core forging business.

During the quarter, the company has secured new business worth Rs 550 Crores across Automotive, Industrial, Defence, Aerospace and Castings (Ferrous & Aluminum).

In the overseas operations, we have been able to achieve improvement in operational parameters at the Aluminum business in Europe and the same is expected in the US plant soon. We continue to work on creating a sustained path to profitability for the overseas business driven by a combination of achieving profitability in the aluminum business and product/manufacturing optimization in the steel business, all expected to materialize in the next 12 – 18 months.

Looking ahead in the Q4 & further into FY25, we expect the growth momentum to moderate in both Domestic & Export market across industries. Our endeavor will be to outperform the market driven by our diversified business mix."

B.N. Kalyani,

Chairman & Managing Director

• Revenues at Rs 22,634 million in Q3FY24 grew by 16% YoY driven by 36% growth in domestic revenue. The Defence business was a major contributor to the growth in revenues while Oil & Gas sector and Agri sector saw a decline in Q3 FY24 as compared to Q3 FY23.

EBITDA

• EBITDA margin at 28.5% in Q3 FY24 was up 330 bps YoY. Improved product mix and higher capacity utilization contributed to the superior operational performance

PBT before Ex. Gain/ Loss

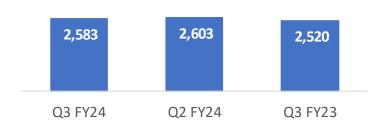

PBT before Exchange gain/ (loss) was Rs 4,865 million in Q3 FY24 as against Rs 3,379 million in Q3 FY23.

Review of India business

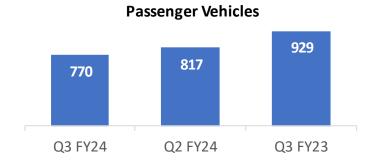

Commercial Vehicles

Automotive Business: The CV business registered a 9% YoY growth in 9MFY24 mirroring the overall market growth. The sector's long term growth trajectory remains intact supported by government capex and allied infrastructure development.

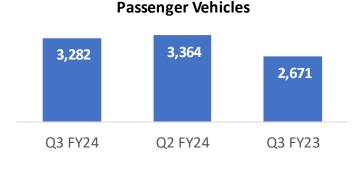

The India PV business remains well-placed for growth driven by premiumization and the shift towards Utility Vehicle within the PV space. We expect this trend to continue supported by burgeoning middle class & higher disposable income.

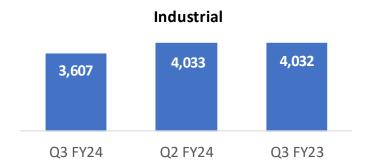

Industrials Business: The Industrial segment's performance continued to be positive. Supply of components to KSSL drove the stellar YoY performance. The infrastructure spend and increasing private capex will continue to keep demand healthy. This quarter witnessed decline in sales to the Agri sector and the Construction & Mining space.

Automotive Business: North American CV business continued to be marginally positive. Class 8 build rates, inventory levels and sales remain steady. European CV performance was subdued as economic recovery remained patchy. Our CV business trajectory continues to revolve around market share gains and addition of new geographies. For the quarter, the decline primarily came from the European markets while the US CV revenues saw an uptick.

The PV business continued its formidable run with a 34% YoY growth in 9MFY24. We remain committed towards tapping new customers and enhancing engagement with the existing ones in multiple geographies.

Industrials Business: Industrial business continues to benefit from new products and expanded engagements with existing clients. Industrials ex – Oil & Gas grew 35% YoY for 9MFY24 largely supported by Mining & Construction, and Aerospace. These new verticals hold good promise, and we continue to actively source newer markets and customers to build on the industrial's success story. We remain focused on building new relationships within the Industrial space targeted at Construction & Mining, Railways, Agri equipment, Aerospace etc.

Review of Export Revenue by Geography

Rs. Million

| Particulars | Q3 FY24 | Q2 FY24 | Q3 FY23 |
